NATIONAL CITY BUSINESS LICENSE RENEWAL

National City, CA (December 16, 2010) – As a reminder to businesses, all National City business licenses expire on December 31, 2010. Existing business owners were mailed renewal notices during the month of December. In an effort to make the business license renewal process easier, National City businesses can renew their license online at <http://www.nationalcityca.gov/index.aspx?page=178>.

To obtain a business license, first submit an application, a business clearance application, an environmental survey form, and a \$100.00 one time application fee. Home based businesses must also submit a home occupation permit application. All business license renewals should be postmarked on or before February 28, 2011.

First time applicants and businesses located outside of National City, even if licensed by another jurisdiction, must obtain a National City business license before conducting any business. Applicants may either download a business license application or pick up an application from the National City Finance Department at 1243 National City Boulevard. For more information about obtaining or renewing a business license visit the City's website.
